APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the 0.25 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is granted with the condition that the use described herein is a non-consumptive use of the water, i.e. the inflow must equal the outflow of the ponds at all times. Any loss from evaporation and seepage must be offset by supplying water from other sources.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed the non-consumptive use of 181 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before April 20, 1990

Proof of completion of work shall be filed on or before May 20, 1990

Application of water to beneficial use shall be made on or before April 20, 1991

Proof of the application of water to beneficial use shall be filed on or before May 20, 1991

Map in support of proof of beneficial use shall be filed on or before N/A
