APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Proof V-04814 and Permit 53060 shall not exceed 0.032 cubic feet per second and 22.96 acre-feet annually.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

It is understood that the amount of water herein granted is limited to the amount of water actually produced by the spring, and no rights in excess of that amount are implied or inferred.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.032 cubic feet per second or sufficient to water 1000 head of cattle and 25 domestic horses.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 17, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

January 17, 2011

Map in support of proof of beneficial use shall be filed on or before:
