The applicant Lawrence L. Askin

5780 N. Riley, of Las Vegas
Street and No. or P.O. Box No. City or Town

Nevada 89129, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.10 second-foot
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for Quasi-Municipal
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated: N/A

(b) Stockwater, state number and kinds of animals to be watered: N/A

(c) Other use (describe fully under "No. 12. Remarks") Domestic - 9 S. F. dwellings

(d) Power:

(1) Horsepower developed N/A

(2) Point of return of water to stream N/A

5. The water is to be diverted from its source at the following point: being N 47°02'23"W 1723.19 ft.
from the SE cor. of Sec. 29, T19S, R60E where the east line of said section bears N 0°23'22"W. The above description is located
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
in the SE 1/4 SE 1/4 of said Section 29.

6. Place of use. The west 1/2 of the northwest quarter of the southeast quarter of
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
the southeast quarter of Section 29, Township 19 South, Range 60 East, MDM,
Clark County, Nevada

7. Use will be begin about January 1st and end about December 31st, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) From existing well and pump to proposed
State manner in which water is to be diverted, i.e. diversion structure, ditches and
10,000 gal. pressurized tank to 4" PVC Class 250 pipe to house laterals.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$15,000 to \$20,000

10. Estimated time required to construct works. Well and pump are existing, other works require 20
If well completed, describe works.
days construction time.

11. Estimated time required to complete the application of water to beneficial use. Approximately five years to
develop site and build the single family dwellings.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual
consumptive use.

Nine (9) single family dwellings. The existing well proposed for quasi-municipal
use has been used, up till now as a single home domestic water supply.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
following limitations and conditions:

This permit is issued subject to existing rights and is further subject to
revocation if and when water can be furnished by an entity such as a water district
or a municipality engaged in furnishing water. A totalizing meter must be installed
and maintained in the discharge pipeline near the point of diversion and accurate
measurements must be kept of water placed to beneficial use. The totalizing meter
must be installed before any use of water begins, or before the Proof of Completion
of Work is filed. It is understood that this right must allow for a reasonable
lowering of the static water level. The well shall be equipped with a 2-inch opening
for measuring depth to water. If the well is flowing, a valve must be installed and
maintained to prevent waste. This source is located within an area designated by the
State Engineer pursuant to NRS 534.030. The State retains the right to regulate the
use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on
public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit
holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
not to exceed 0.1 cubic feet per second, but not to exceed 3.285 million
gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before January 12, 1992

Proof of completion of work shall be filed before February 12, 1992

Application of water to beneficial use shall be filed on or before January 12, 1995

Proof of the application of water to beneficial use shall be filed on or before February 12, 1995

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed FEB 24 1993 IN TESTIMONY WHEREOF, I PETER G. MORROS,

State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed my office, this 12th day of January
