APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 35708, Certificate 10651 is issued subject to the terms and conditions imposed in said Permit 35708, Certificate 10651 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 19371, Certificate 6990, 54946, 54947 and 54948 shall not exceed 502.4 acre-feet annually.

The issuance of this permit reduces the land that can be irrigated under Permit 20001, Certificate 7396 and Permit 35708, Certificate 10651 to 131.6 acres and reduces the diversion rate under the two aforementioned permits to 2.022 c.f.s.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.338 cubic feet per second, but not to exceed 88 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before February 3, 1994

Proof of completion of work shall be filed before March 3, 1994

Application of water to beneficial use shall be made on or before February 3, 1996

Proof of the application of water to beneficial use shall be filed on or before March 3, 1996

Map in support of proof of beneficial use shall be filed on or before March 3, 1996

Completion of work filed APR 05 1996

Proof of beneficial use filed
