APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This primary permit is issued under the authority of NRS 533.440 (Secondary Applications are required for the use of the appropriated effluent) and is only a temporary allowance and the quantity granted may exceed the effluent discharged. The final water right obtained will be dependent upon the amount of effluent actually placed to beneficial use under the secondary permits. A totalizing meter must be installed at the discharge near the point of diversion and accurate measurements must be kept of effluent discharged. Granting of this permit is not intended in any way to waive or affect authority or requirements of appropriate water quality control agencies or regulations. This permit is further issued subject to the provisions of NRS 533.395 and the State retains the right to regulate the use of water herein granted at any and all times.

This permit is issued subject to the stipulation signed on February 6, 1992 between the permittee and the protestant.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 9.28 cubic feet per second, but not to exceed 4000 acre-feet annually for storage.

Work must be prosecuted with reasonable diligence and be completed on or before March 5, 1993

Proof of completion of work shall be filed on or before April 5, 1993

Application of water to beneficial use shall be made on or before N/A

Proof of the application of water to beneficial use shall be filed on or before N/A

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed APR 21 1993
