

(PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from each well and the amount of water used for mining and milling purposes.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on June 24, 1992 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The permittee or its representatives shall submit a monitoring plan to the State Engineer within three months after the issuance of this permit. This plan must address all potential impacts resulting from the dewatering of the pit area. The State Engineer retains the right to require the permittee to cooperate in the funding of a hydrology study to be conducted by an independent third party.
