

## (PERMIT TERMS CONTINUED)

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The issuance of this permit constitutes only a new well site with no new appropriations being granted and shall be used only as a supplemental source with Permit 12565, Certificate 4684 and Permit 30434, Certificate 10706.

Monthly reports shall be kept of the amount of water pumped from this well and the well under Permit 30434, Certificate 10706 and the amount of water diverted from the spring under Permit 12565, Certificate 4684 and these records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permits 12565, Certificate 4684; 30434, Certificate 10706 and 57008 shall not exceed 6.63 million gallons annually.  
 (CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.09 cubic feet per second, but not to exceed 6.63 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before October 2, 1994

Proof of completion of work shall be filed before November 2, 1994

Application of water to beneficial use shall be filed on or before October 2, 1997

Proof of the application of water to beneficial use shall be filed on or before November 2, 1997

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed DEC 8 1994

Proof of beneficial use filed DEC 01 1997
