

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office JUL 15 1992

Returned to applicant for correction

Corrected application filed Map filed JUL 15 1992 under 57858-T

The applicant HIDDEN VALLEY COUNTRY CLUB

3575 E. Hidden Valley Drive of Reno Nevada 89502

hereby make application for permission to change the

a portion of the point of diversion of water heretofore appropriated under Permit 17448, Certificate 5869

Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.

1. The source of water is underground Name of stream, lake, underground spring or other source.

2. The amount of water to be changed 2.0 cfs Second feet, acre feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for recreation and domestic (golf course) Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

4. The water heretofore permitted for recreation and domestic Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

5. The water is to be diverted at the following point within the NW 1/4 SW 1/4 Sec. 21, T.19N., R.20E., at a point from which the W 1/2 corner of said Section 21 bears N. 66 degrees distance to a section corner. If on unsurveyed land, it should be stated. 31'50"W, a distance of 835.89 feet.

6. The existing permitted point of diversion is located within the NW 1/4 NE 1/4 Sec. 27, T.19N., R.20E., M.D.B. & M., at a point from which the NE corner of Section 27 bears N. 59 degrees 22' E a distance of 2339.1 feet.

7. Proposed place of use Refer to Exhibit A attached hereto Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.

8. Existing place of use Refer to Exhibit A attached hereto Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.

9. Use will be from January 1 to December 31 of each year.

10. Use was permitted from January 1 to December 31 of each year.

11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drilled and cased well, submersible pump and motor. Water will be transferred to Pond B via open channel.

12. Estimated cost of works \$50,000

13. Estimated time required to construct works One year

Five years

14. Estimated time required to complete the application of water to beneficial use.....

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

The source is the same as abandoned well previously assigned Permit 27372. Permittee will drill through the concrete installed in the abandoned well, which concrete seals it. Water will be conveyed to the place of use, being Hidden Valley Country Club. This is a temporary application filed pursuant to NRS 533.345, being required by the current drought condition. It is fully understood that this application, the application filed simultaneously herewith, and Application 57824-T cannot exceed the volumes set forth on Certificate of Appropriation 5869 and 5870.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This temporary permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 17448, Certificate 5869 is issued subject to the terms and conditions imposed in said Permit 17448, Certificate 5869 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A measuring device must be installed and accurate measurements must be taken of the amount of water pumped from the well into Boynton Slough and the amount of water removed from Boynton Slough. A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which includes the amount of water pumped from the well and Boynton Slough.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.89 cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be made on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....
Proof of beneficial use filed.....
Cultural map filed.....
Certificate No. Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my
office, this 7th day of August

A.D. 19 92
R. Michael Turnipseed
State Engineer

EXPIRED

DATE AUG 8 1993

(PERMIT TERMS CONTINUED)

The total combined duty of water under Permits 57842-T, 57858-T and 57859-T shall not exceed 815.12 acre-feet annually.

Three working days prior to any diversion of water from the Boynton Slough under this permit, the State Engineer shall be notified in order to inspect the measuring device used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on August 6, 1993 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
