APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 47961 is issued subject to the terms and conditions imposed in said Permit 47961 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 48163, Certificate 13142; 48660, Certificate 13144; 48663, Certificate 13145; 53185, 53186, 53187, 53188, 55001 and 58686 shall not exceed 315.42 million gallons annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. (CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.5 cubic feet per second but not to exceed 235.9 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 15, 1995

Proof of completion of work shall be filed before June 15, 1995

Application of water to beneficial use shall be made on or before May 15, 1997

Proof of the application of water to beneficial use shall be filed on or before June 15, 1997

Map in support of proof of beneficial use shall be filed on or before N/A

(PERMIT TERMS CONTINUED)

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

Any well or test hole drilled under Permit 47961 shall be plugged in accordance with NAC 534.420 (Regulations on Water Well and Related Drilling) within 60 days from the issuance of this permit.
