APPROVAL
OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 23958, Certificate 7525 is issued subject to the terms and conditions imposed in said Permit 23958, Certificate 7525 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 59123 and 60016 shall not exceed 480.0 acre-feet annually.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.3127 cubic feet per second, but not to exceed 226.4 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before May 17, 1997

Proof of completion of work shall be filed before June 17, 1997

Application of water to beneficial use shall be made on or before May 17, 2000

Proof of the application of water to beneficial use shall be filed on or before June 17, 2000

Map in support of proof of beneficial use shall be filed on or before June 17, 2000

Completion of work filed JUN 17 1996

Proof of beneficial use filed JUL 13 2001

Cultural map filed JUL 13 2001

Certificate No. 15900 Issued NOV 14 2001

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,
State Engineer of Nevada, have hereunto set my hand and the seal of my
office, this 17th day of May,

A.D. 1995

State Engineer

EXHIBIT "A"

This application is being filed in order to provide water for the proposed Lahontan Business Park on the applicant's property near Hazen, Nevada. This is the only one of its kind in Churchill County with both rail service adjacent to the Southern Pacific mainline and a large supply of potable underground water. As such it is an important asset in the continued economic development of Churchill County.

As initially designed, the proposed park will consist of 5 to 10 acre building sites with both rail and roadway service. Primary development will be concentrated within Section 35, T.20N., R.26E., M.D.B. & M. of the proposed place of use.

The water system to service these lots will consist of a 12" mainline distribution system and a 1.3 million gallon storage tank. A sewer and storm drain system is to be constructed which will feed a 422,000 gallon capacity wastewater treatment plant constructed on site.

All wells will be reequipped and upgraded in order to provide the necessary flows to supply this project.

In summary, this is a high quality project designed to both put the water under these applications to beneficial use and to enhance the economic viability of Churchill County.

For the existing point of diversion and place of use, refer to the map filed under Permit 50442.
