APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 56611 is issued subject to the terms and conditions imposed in said Permit 56611 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is issued subject to the water management plan and water management plan addendum among Barrick Goldstrike Mines, Inc.; Newmont Gold Company; and T S Ranch Joint Venture dated May 1, 1989. (CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second, but not to exceed 7.01 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before _____

Proof of completion of work shall be filed before _____

Application of water to beneficial use shall be made on or before _____

Proof of the application of water to beneficial use shall be filed on or before _____

Map in support of proof of beneficial use shall be filed on or before _____

Completion of work filed _____

Proof of beneficial use filed _____

Cultural map filed _____

STATE ENGINEER

(PERMIT TERMS CONTINUED)

Any water obtained as a result of the dewatering operation of Barrick Goldstrike Mines, Inc. or Newmont Gold Company shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering and other related mining and milling uses hereinafter referred to as mining and milling uses within the described place of use and prior to any use of the water authorized under Permits 49960, 50688, 50939, 51074, 51750, 51963, 52354, 52795 (Certificate 13396), 52797 (Certificate 13397), 52999, 53000, 54335, 54337, 55127, 56607, 56608, 56609, 56610, 56611, 56612, 59058, 59750-T, 59751-T, 59752-T, 59753-T, 59754-T and 59755-T.

The total amount of water under the above mentioned permits shall not exceed 2,000 million gallons annually.

The State Engineer retains the right to regulate the pumping from the dewatering project and/or any other groundwater herein authorized to protect the public interest and existing rights.

A monthly report shall be submitted to the State Engineer within 10 days from the end of the month which shall include the amount pumped from each well and the amount used for each mining and milling purpose.

This permit is subject to the "Boulder Valley Monitoring Plan" previously approved by the State Engineer on April 10, 1991.

This permit also incorporates the provisions of "Order on Rulemaking Concerning Spacing Requirements in the Northern Portion of the Boulder Flat Groundwater Basin" issued by the State Engineer on March 29, 1991 under Order No. 1038.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on October 12, 1995 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
