

**APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office APR 12 1994

Returned to applicant for correction.....

Corrected application filed.....

Map filed APR 12 1994

The applicant City of Los Angeles, Department of Water and Power  
Attention: William H. Beckley, Agent

P.O. Box 111, Room 1029, of Los Angeles  
Street and No. or P.O. Box No. City or Town

California 90051, hereby make... application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Department of Water and Power  
established by City Charter on July 7, 1925

1. The source of the proposed appropriation is underground  
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 2.0 second feet (120 million gallons) second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for Temporary Industrial/Construction Purposes  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated ---

(b) Stockwater, state number and kinds of animals to be watered ---

(c) Other use (describe fully under No. 12. "Remarks") Temporary Industrial/Construction Purposes

(d) Power:

(1) Horsepower developed ---

(2) Point of return of water to stream ---

5. The water is to be diverted from its source at the following point in the SW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 2 T.25S R.62E, M.D.B. & M. or at a point Describe as being within a 40-acre subdivision of public  
from which the E $\frac{1}{4}$  corner of the said Section 2 bears S. 75° 04' 47" E.,  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.  
a distance of 1778.26 feet situated in Clark County, State of Nevada.

6. Place of use refer to attached Exhibit A for Proposed Place of Use  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Water to be diverted from existing well by centrifugal pump through a 4-inch diameter pipeline to two existing 100,000 gal. storage tanks, then transported to the present and proposed places of use by pumps and pressure pipelines.  
State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

- 9. Estimated cost of works to transport water to new place of use (Marketplace S.S.)  
\$670,000.
- 10. Estimated time required to construct works well completed - refer to Item 8 for description  
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use four year construction period

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

See Item 12. attached.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance issued under the provisions of NRS 533.371 for a finite period of time. This permit will expire on July 31, 1996 and all rights herein will revert back to the source. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second but not to exceed 120 million gallons total during the period ending July 31, 1996.

Work must be prosecuted with reasonable diligence and be completed on or before November 4, 1995

Proof of completion of work shall be filed before December 4, 1995

Application of water to beneficial use shall be filed on or before N/A

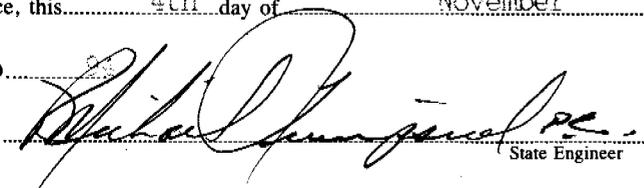

Proof of the application of water to beneficial use shall be filed on or before N/A

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed DEC 28 1996  
Proof of beneficial use filed \_\_\_\_\_  
Cultural map filed \_\_\_\_\_  
Certificate No. \_\_\_\_\_ Issued \_\_\_\_\_

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNERSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 4th day of November,

A.D. \_\_\_\_\_  
  
State Engineer

(PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 49049, Certificate 13039, 59575, 59713-T, 59864-T and 59912 shall not exceed 159.80 million gallons total during the period from September 7, 1993 to July 31, 1998.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

**EXPIRED**

**DATE JUL 31 2001**

## EXHIBIT A

## 6. Proposed Place of Use:

McCullough Switching Station - Those portions of Section 2 T.25S, R.62E, M.D.B. & M. which includes portions of the NE $\frac{1}{4}$ , NW $\frac{1}{4}$ , SE $\frac{1}{4}$  and SW $\frac{1}{4}$  of the NE $\frac{1}{4}$ , portions of the NE $\frac{1}{4}$  and SE $\frac{1}{4}$  of the NW $\frac{1}{4}$ , a portion of the NW $\frac{1}{4}$  of the SE $\frac{1}{4}$  and a portion of the NE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of Section 2.

Marketplace Switching Station - Located in portions of Section 25, 26, 35, and 36 of T.24S, R.62E., M.D.B. & M. which includes a portion of the SW $\frac{1}{4}$  SW $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 25, portion of the SE $\frac{1}{4}$  SE $\frac{1}{4}$  of Section 26, portion of the NE $\frac{1}{4}$ , and SE $\frac{1}{4}$  of Section 35 and portion of the W $\frac{1}{2}$  W $\frac{1}{2}$  NW $\frac{1}{4}$  of Section 36.

Vicinity of Proposed and Existing Access Roads - Located within the NE $\frac{1}{4}$ , NW $\frac{1}{4}$ , and SW $\frac{1}{4}$  of Section 2, and NW $\frac{1}{4}$  of Section 1, T.25S R.62E, M.D.B. & M. and within the SW $\frac{1}{4}$  of Section 36, the SE $\frac{1}{4}$  of Section 35, the SE $\frac{1}{4}$  NE $\frac{1}{4}$  of Section 35, the NW $\frac{1}{4}$  of Section 36 and SW $\frac{1}{4}$  of Section 25, and SE $\frac{1}{4}$  of Section 26, T.24S R.62E, M.D.B. & M.

12. Water to be used for temporary construction purposes, e.g., soil compaction, dust control, soil cement, etc., for construction at the new Marketplace and existing McCullough Switching Station. This is an additional 120 million gallon appropriation for a 4 year construction period. Additional water is needed for unanticipated compaction water requirements and other construction projects related to the two switching stations. We anticipate the projects will be completed by July 1998. The purpose of the 2 cfs diversion rate is to ensure sufficient diversion rate at the permanent well at McCullough S.S. when water is transferred to the temporary construction well at Marketplace S.S.
