APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.3 cubic feet per second, but not to exceed 2.8 million gallons annually.

- Work must be prosecuted with reasonable diligence and be completed on or before..... May 18, 1996
- Proof of completion of work shall be filed before..... June 18, 1996
- Application of water to beneficial use shall be filed on or before..... May 18, 1998
- Proof of the application of water to beneficial use shall be filed on or before..... June 18, 1998
- Map in support of proof of beneficial use shall be filed on or before..... N/A

Completion of work filed..... JUL 15 1996

Proof of beneficial use filed..... JUL 06 1998

 State Engineer

(PERMIT TERMS CONTINUED)

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permit 41214, Certificate 12748 and Permit 60037 shall not exceed 6.1 million gallons annually.

This permit is limited to the present existing uses within the place of use as described.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.
