

AMENDED PERMIT

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT
Source: UNDERGROUND
Basin: LAKE TAHOE BASIN
Manner of Use: RECREATIONAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 01/16/1997

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water granted is only a temporary allowance and the final water right will be dependent upon the amount actually placed to beneficial use. A totalizing meter must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water diverted to snowmaking and consumptively used. This permit is subject to the final allocation to the State of Nevada under the California-Nevada Interstate Compact Commission or PL-101-618. The State retains the right to regulate the use of water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued for the express purpose of allowing up to 200 acre-feet annually to be diverted for the non-consumptive portion of snowmaking. The consumptive portion of the diversion for snowmaking purposes is determined to be 16% of the amount of water diverted and must be supplied by existing Incline Village General Improvement District (IVGID) water rights. This permit does not authorize any additional appropriation for consumptive use.

Monthly records shall be kept of the amount of water diverted from this source for snowmaking purposes and the consumptive use portion must be calculated. These records must be submitted to the State Engineer along with all other water use by IVGID on a quarterly basis within 15 days after the end of each calendar quarter.

The total combined duty of water under Permit 18351, Certificate 5232; Permit 40511, Certificate 14298; Permit 40512, Certificate 13536; Permit 40515, Certificate 13537; Permit 43042, Certificate 13539; Permit 52244, Certificate 14299; Permits 58395, 58396, 62044, 62045, 62046, 62047, 62048, 62049, 62698, 62768, 62881, 62915, 63794, 64259, 64298, 64839, and 66122 shall not exceed 4,164.72 acre-feet annually.
