The applicant BHP Nevada Mining Company, hereby makes application for permission to change the Point of diversion and manner of use a portion of water heretofore appropriated under Permit No. 43379 (Liberty Pit)

1. The source of water is underground.
2. The amount of water to be changed 0.45 CFS
3. The water to be used for Mining, milling, mine dewatering
4. The water heretofore permitted for Industrial
5. The water is to be diverted at the following point NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 16 T.16N., R.62E. M.D.B.&M. from a well designated LDW-4
6. The existing permitted point of diversion is located within the Liberty pit lake sump which consists of a barge mounted pump. The existing point of diversion stated in the permit is the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 16 T.16N., R.62E. M.D.B.&M. or at a point from which the NE Corner of said Section 9, T.16N., R.62E., M.D.B.&M. bears N. 36° 11' 36" E a distance of 6,728.00 feet.
7. Proposed place of use Sections 12 and 13 T.16N., R.61E., Sections 2-22, T.26N., R.62E., and Sec. 7, 17, 18, 19, and 20, T.16N., R.63E., all M.D.B.&M.
8. Existing place of use (same as above)
9. Use will be from January 1st to December 31st of each year.
10. Use was permitted from January 1st to December 31st of each year.
11. Description of proposed works 6 inch completed well with submersible electric pump and mechanical flow meter
12. Estimated cost of works \$65,000.00
13. Estimated time required to construct works 1 year
14. Estimated time required to complete the application of water to beneficial use 5 years
15. Remarks:

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 43379 is issued subject to the terms and conditions imposed in said Permit 43379 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of Permits 43378, 43379, 43380, 43381, 55906, 55908, 55910, 55911, 55912, 55913, 55915, 58245, 58793, 61745, 62685, and 62782-T will not exceed 13,204.0 acre-feet annually.

The permittee will comply with the monitoring plan approved by the State Engineer which will be subject to revision upon review of the data generated.

The data and analysis of the data will be submitted to the State Engineer on a monthly basis, subject to any revision of the frequency of the data collected.

The State Engineer requires that a monthly record shall be kept of: (A) The volume of water pumped from each well, (B) The measurement of pumping water level (drawdown) from each production, dewatering and monitoring well, (C) The volume of water consumptively used for mining and milling uses projectwide, and (D) The volume of water used for dust control purposes projectwide. This record will be submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on September 17, 1998, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(CONTINUED ON PAGE 2)

(PERMIT TERMS CONTINUED)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.45 cubic feet per second, but not to exceed 325.8 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Application of water to beneficial use shall be filed on or before:

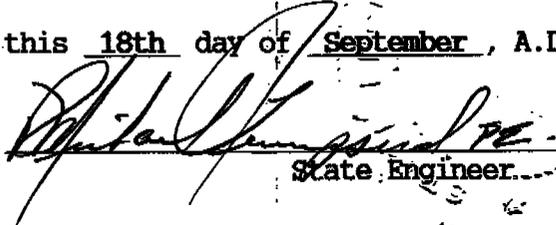

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:
