OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

ATTACHMENT "A"**Question 12 Remarks:**

Applications 60222 and 60223 were previously filed July 19, 1994 requesting a Change in the Place and Manner of Use of Permits 47525 and 47526, Certificate 12958 and 12959. These applications were subsequently denied on the ground that the "Granting thereof would adversely affect existing rights and would be detrimental to the public interest". This was primarily due to the basin being over appropriated per Water Resources Reconnaissance Series Report #59.

It is respectfully requested that consideration be given to this application predicated on the recent evaluation of the Dayton Valley Hydrographic Area by the U.S. Geological Survey Water Resources Investigations Report 97-4123.

This water will be used for a proposed subdivision within the noted Place of Use.
