

NO. 65756

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC
WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office DEC 27 1999

Returned to applicant for correction _____

Corrected application filed _____

Map filed: OCT 05 1959 under 18074

The applicant **Gary Calvin Adams** hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

1. The source of the proposed appropriation is **an underground source in Nye County, NV**
2. The amount of water applied for is **6.0** second-feet
 - (a) If stored in reservoir give number of acre-feet
3. The water to be used for **Irrigation and Domestic use**
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated **320**
 - (b) Stockwater, state number and kinds of animals to be watered
 - (c) Other use (describe fully under No. 12. "Remarks")
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point **NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 10, T.8S., R.44E., M.D.M., at a point from which the N $\frac{1}{4}$ cor. of Sec. 3, T.8S., R.44E. bears N 1°03' W a distance of 5476 ft. MAP ON FILE WITH PERMIT NUMBER 18074**
6. Place of Use **N $\frac{1}{2}$ Sec. 10, T.8S., R.44E., M.D.M.**
7. Use will begin about **January 1** and end about **December 31** of each year.
8. Description of proposed works **a 15" dia. X 260' deep driven well (existing), submersible pump, wire, pipe, and irrigation system**
9. Estimated cost of works **\$150,000**
10. Estimated time required to construct works **4 years**
11. Estimated time required to complete the application of water to beneficial use **5 years**

12. Remarks:

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer and the National Park Service on a quarterly basis within 15 days after the end of each calendar quarter.

Applicant shall ensure that the well described under this permit is sufficiently accessible to permit the measurement of static water levels.

This permit is issued with this understanding that the well must be completed in the shallow basin-fill sediments and the permittee shall not pump groundwater from a well that is more than 260 feet deep.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.4 cubic feet per second, but not to exceed 1,600 acre-feet annually, and not to exceed a yearly duty of 5 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

May 11, 2003

Proof of completion of work shall be filed before:

June 11, 2003

Water must be placed to beneficial use on or before:

May 11, 2006

Proof of the application of water to beneficial use shall be filed on or before:

June 11, 2006

Map in support of proof of beneficial use shall be filed on or before:

June 11, 2006

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

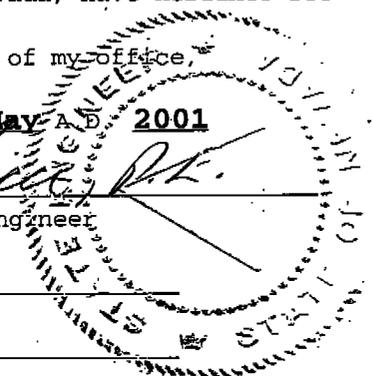

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 11th day of, May, A.D. 2001

Hugh Ricci

State Engineer
