Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 41205 is issued subject to the terms and conditions imposed in said Permit 41205 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.469 cubic feet per second, but not to exceed 7.504 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

December 27, 2000

Proof of completion of work shall be filed before:

January 27, 2001

Water must be placed to beneficial use on or before:

December 27, 2001

Proof of the application of water to beneficial use shall be filed on or before:

January 27, 2002

Map in support of proof of beneficial use shall be filed on or before:

January 27, 2002

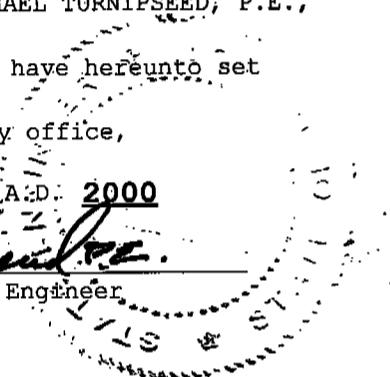

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,

State Engineer of Nevada, have hereunto set
my hand and the seal of my office,

this 27th day of, June A.D. 2000

R. Michael Turnipseed, P.E.

State Engineer

Completion of work filed APR 02 2001

Proof of beneficial use filed _____

Cultural map filed _____

Certificate No. _____ Issued _____

Abrogated By: 68424 0.469

EXHIBIT "A"

A Proof of Beneficial Use was submitted January 21, 2000, on a portion of the water permitted under Permit 41205. The Proposed Point of Diversion as shown on the Map filed with Permit 41205 turns out to be incorrect, therefore, the Proof of Beneficial Use is being withdrawn. An Application to Change & Map is being filed to correct the Point of Diversion. The Application to Change will be for the amount of water that the PBU was going to Certificate. As soon as the New Permit is issued, a Proof of Beneficial Use will be filed.

Also, Application to Change 65918 was filed on the water that remained after subtracting out the water amount originally filed under the Proof of Beneficial Use. Consequently, the amount of water that the State assigns under Application to Change 65918 is directly related to the amount of water certificated under the Proof of Beneficial Use. The water that would have been under the Proof of Beneficial Use, is the water that is now under the New Application to Change.
