\*\*\*\*\*

The applicant **Sierra Pacific Power Company**, hereby makes application for permission to change the **Point of Diversion and Place of Use** of water heretofore appropriated under **Permit 57820**.

\*\*\*\*\*

1. The source of water is **underground**
2. The amount of water to be changed **1.0 cfs, 560 acre feet annually**
3. The water to be used for **Municipal**
4. The water heretofore permitted for **Municipal**
5. The water is to be diverted at the following point **situate in the NW¼ NW¼ Section 35, T.20N., R.20E., M.D.B.&M.. or at a point from which the north quarter of said section 35 bears North 88° 02' 14" East, a distance of 1,327.99 feet.**
6. The existing permitted point of diversion is located within the **Southwest ¼ Southwest ¼ Section 25, T.20N., R.20E., M.D.B.&M. from said point the Southwest corner of said Section 25 bears South 09° 30' 00" West, a distance of 1,210 feet. (Map of existing diversion point is on file under 57820)**
7. Proposed place of use **The certificated water service area of Sierra Pacific Power Company as described in Exhibit "A" and as shown on the map that accompanied Application #62141 on file at the Engineer's Office, Division of Water Resources.**
8. Existing place of use **The certificated water service area of Sierra Pacific Power Company as described in the legal description and shown on the supporting map on file with the State Engineer's Office, Division of Water Resources.**
9. Use will be from **January 1st to December 31st** of each year.
10. Use was permitted from **January 1st to December 31st** of each year.
11. Description of proposed works: **Drilled and cased well. Constructed related facilities connected to Sierra's esisting distribution system.**
12. Estimated cost of works **\$250,000**
13. Estimated time required to construct works **Five (5) years.**
14. Estimated time required to complete the application of water to beneficial use **Ten (10) years**
15. Remarks: **Sierra Pacific Power Company is applying for a permit to change the point of diversion of their Water Righ 57820. This permit change application will move water from Sierra's proposed NE Sparks well site to Sierra's proposed Pah Ran Park well site.**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 57820, is issued subject to the terms and conditions imposed in said Permit 57820, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 560 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

February 1, 2007

Proof of completion of work shall be filed before:

March 1, 2007

Water must be placed to beneficial use on or before:

February 1, 2012

Proof of the application of water to beneficial use shall be filed on or before:

March 1, 2012

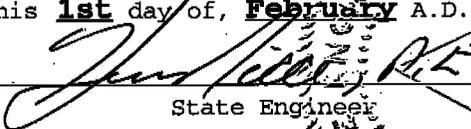

Map in support of proof of beneficial use shall be filed on or before:
