

**THE STATE OF NEVADA****PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: MOAPA ALLIANCE BUSINESS TRUST
Source: UNDERGROUND (WELL #9)
Basin: LOWER MEADOW VALLEY WASH
Manner of Use: MUNICIPAL AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 08/06/1963

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 66337, is issued subject to the terms and conditions imposed in said Permit 66337 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permits 66976 through 66987, 66990, 66992 through 66994, 66996, 66997 and 66999 shall not exceed 4,795.88 acre-feet annually. However, pursuant to the Stipulation and Settlement Agreement in the Eighth Judicial District Court of the State of Nevada in and for the County of Clark, Case No. A459577, Dept. No. XV, only 4,316.29 acre-feet (the net consumptive use amount) can be diverted annually. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Pursuant to State Engineer's Ruling #5167, a monitoring, management and mitigation plan must be submitted and approved by the State Engineer prior to any water being diverted under this permit.

The place of use for these permits is limited to the Lower Meadow Valley Wash Hydrographic Basin (Basin 205).

(Continued on Page 2)

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

A total of 312.75 acre-feet annually is abrogated from the base right. However, pursuant to the Stipulation and Settlement Agreement in the Eighth Judicial District Court of the State of Nevada in and for the County of Clark, Case No. A459577, Dept. No. XV, only 281.48 acre-feet annually at 1.68 cubic feet per second can be diverted annually. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 13 2018

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

January 13 2021

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 13th day of January, 2016

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office DEC 04 2000

Returned to applicant for correction _____

Corrected application filed _____

Map filed DEC 04 2000 under 66976

The applicant **Moapa Valley Water District** hereby make application for permission to change the **Point of Diversion, Place and Manner of Use** of water heretofore appropriated under **Application No. 66337**

1. The source of water is **Underground**
2. The amount of water to be changed ^{1.72 312.75} ~~2.47~~ cfs - ~~468.95~~ Acre Feet Annually
3. The water to be used for **Municipal and Domestic Use**
4. The water heretofore permitted for **Irrigation and Domestic Use**
5. The water is to be diverted at the following point **SW¼ NW¼ of Section 13 T12S, R65E, MDM, or at a point from which the SW corner of said Section 13, bears S 07° 59' 48" W, a distance of 3468.58 feet. Ref to supporting map. (Well #9)**
6. The existing permitted point of diversion is located within **NE¼ NW¼ of Section 13, T12S, R65E, M.D.M., or at a point from which the NW corner of said Section 13 bears N 74° 19' 53" W, a distance of 1703.0 feet. (Refer to Supporting Map filed under Application No. 66337)**
7. Proposed place of use **Refer to Exhibit "A" Attached**
8. Existing place of use **Within the Sw¼ of Section 21, the W½ of Section 28, the W½ SE¼ of Section 28, and the NE¼ of Section 29, the E½ of the Section 22, and the E½ SE¼ of Section 27, all within T14S, R66E, MDM. (Refer to Supporting Map filed under Application No. 66337)**
9. Use will be from **JANUARY 1 to DECEMBER 31** of each year.
10. Use was permitted from **JANUARY 1 to DECEMBER 31** of each year.
11. Description of proposed works **Pump station consisting of pump and motor assembly with fourteen (14) miles of transmission pipeline, connecting to existing system.**
12. Estimated cost of works **Six (6) Million Dollars**
13. Estimated time required to construct works **Five (5) Years**
14. Estimated time required to complete the application of water to beneficial use **Ten (10) Years**
