APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 57869, Certificate 14708, is issued subject to the terms and conditions imposed in said Permit 57869, Certificate 14708, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 67424 and 67425 shall not exceed 101.6 acre-feet seasonally.

This permit is issued as a supplemental right to surface water under Permits 67421, 67422 and 67423 and can only be used when the surface water is not available.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(Continued on Page 3)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.102 cubic feet per second, but not to exceed 33.6 acre-feet seasonally.

Work must be prosecuted with reasonable diligence and be completed on or before:

September 11, 2007

Proof of completion of work shall be filed on or before:

October 11, 2007

Water must be placed to beneficial use on or before:

September 11, 2011

Proof of the application of water to beneficial use shall be filed on or before:

October 11, 2011

Map in support of proof of beneficial use shall be filed on or before:

October 11, 2011
