EXHIBIT "A"
ITEM NO. 15 REMARKS

PROPOSED POINT OF DIVERSION

Water will be allowed to flow down Dog Creek unimpeded to the Truckee River and will remain in the river and will not be diverted between the existing point of diversion and the Vista USGS gauge, after the Vista USGS gauge this water may be utilized to satisfy existing downstream water right allocations.

PROPOSED PLACE OF USE

Instream Flows Between Existing Point of Diversion and Vista: Truckee River Decreed water removed from the existing place of use under this application to change will remain in the Truckee River as instream flows from the existing point of diversion to the Truckee Meadows Water Reclamation Facility located near the Vista USGS gauging station. This water must remain in the Truckee River and not be diverted between the existing point of diversion and the Vista USGS gauge.

Natural Flows Past Vista: After the Vista USGS gauging station, this same Truckee River water may be utilized by downstream water users as natural flow to satisfy existing water right allocations.
