APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions.

This temporary permit to change the point of diversion and place of use of a portion of the waters of the Truckee River as heretofore granted under Claim 607, Truckee River Final Decree is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Water under Temporary Permit 69113-T will be commingled with water from Temporary Permit 69114-T for the irrigation of 77.78 acres within the described place of use.

Temporary Permits 69113-T and 69114-T are issued subject to the availability of waters as determined by the Federal Water Master.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on **October 1, 2003** at which time all rights herein granted shall revert to the right being permit.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, but not to exceed 134.69 acre-feet as decreed and not to exceed a seasonal duty of 4.5 acre-feet per acre of land irrigated from any and /or all sources.annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

State Engineer of Nevada, have hereunto set
my hand and the seal of my office,

ATTACHMENT TO TEMPORARY APPLICATION TO CHANGE TRUCKEE RIVER
DECREE CLAIM 607

Item 15. Remarks.

This application, together with an application to change Claim 601, is being filed to allow for the second year of temporary use of this portion of Claim 607. This is part of The Nature Conservancy's efforts to rehabilitate natural vegetation at the McCarran Ranch and to assist in the improvement of water quality in the Truckee River. This project is a cooperative effort of The Nature Conservancy, the City of Reno, and the University of Nevada, Reno. A total of 350 AFA is proposed to be temporarily moved from the University's Main Farm area downstream to be used within the 393.63 acres being acquired by The Nature Conservancy through the sale of the Ranch.

Water under Claim 607 is to be taken directly from the Pioneer Ditch, leaving drain and waste water from Claim 607a intact on the Main Farm. In the first year of use of this water (under Permit 67962T) seven acres of riparian area were planted and watered including approximately 10,000 trees.

The duty of water under Claims 601 and 607 is 4.0038 acre-feet per acre and 1.0039 acre-feet per acre, respectively. Although these applications are removing 53.78 acres and 134.81 acres from the Claims 601 and 607 irrigation areas, the duty proposed for transfer will reflect the decreed duty of the surface water rights at the proposed place of use (4.5 acre-feet per acre). This will allow a total of 77.78 acres to be irrigated annually within the overall 393.63 acres

Please use Truckee River Decree Maps TR-045 and TR-046 on file at the Division of Water Resources to support the existing point of diversion and place of use.
