

**THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER**

Name of applicant: ATI SYSTEMS INTERNATIONAL, INC.
Source: UNDERGROUND
Basin: GRANITE SPRINGS VALLEY
Manner of Use: IRRIGATION
Period of Use: January 1st to December 31st
Priority Date: 11/25/2002

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin. Any application to change the manner of use will be considered for the net consumptive use portion only.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount that can be applied to beneficial use, **and not to exceed 5.4 cubic feet per second, 1280 acre-feet annually and a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 8, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

October 8, 2012

Map in support of proof of beneficial use shall be filed on or before:

October 8, 2012

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 8th day of October, A.D. 2007
