#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of a portion of the waters of an underground source as heretofore granted under Permit 52243, Certificate 12502 is issued subject to the terms and conditions imposed in said Permit 52243, Certificate 12502 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued with the understanding that 4.8 acres of the proposed place of use shall first be irrigated by Newlands project water under the permit holder's farm unit transfer permit. Any year that there is not 4.8 acres designated to be within that farm unit transfer, the proposed place of use of this permit shall be reduced by the same acreage.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.3188 cubic feet per second or 60.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 27 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

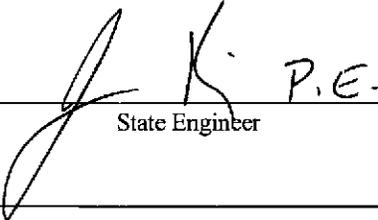

July 27 2016

Map in support of proof of beneficial use shall be filed on or before:

July 27 2016

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 27th day of **July, 2012**

Question 15:

**Remarks**

This application is being filed to change the place of use of 15 acres of supplemental groundwater under Permit 52243, Certificate 12502. The underlying surface rights are being transferred by Application to Change 58541, which is pending approval by the Nevada Division of Water Resources. The water being transferred by this application will remain supplemental to surface rights within the new place of use. For additional information, please refer to the letter dated April 30, 2002 from Mr. Steve Brown of NDWR on file under Permit 52243, Certificate 12502 for additional information.
