8. Description of proposed work.

The existing irrigation well (Permit No. 18975), is no longer effective for irrigation, and has to be deepened and new casing installed in another location.

The work required would be a 6" casing inside existing 16 inch casing, gravel packed to 50ft from surface, and cement top 50ft. A 1 horse power submersible electric pump will be used to pump the water.

Parson's Drilling from Fallon, Nev. will do the work.
