A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

The issuance of this permit is for the consumptive use portion only, being 2.5 acre-feet per acre of the base right. The remaining portion of the base right will remain in the river for use by other decreed right holders.

A monthly report shall be submitted to the Federal Water Master within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.

(CONTINUED ON PAGE 3)
