

TEMPORARY

NO. 70222-T

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office JUL 11 2003

Returned to applicant for correction _____

Corrected application filed _____

Map filed JUL 11 2003

The applicant **Lawrence C. Masini Ranch** hereby makes application for permission to change the **Point of Diversion** of water heretofore appropriated under **Permit 58754 (Bowman Well #1)**

1. The source of water is **Underground**
2. The amount of water to be changed **3.0 c.f.s.**
3. The water to be used for **Irrigation and Domestic**
4. The water heretofore permitted for **Irrigation and Domestic**
5. The water is to be diverted at the following point **SW¹/₄SW¹/₄ Section 34, T.15N., R.25E., MDM, or at a point from which the Southeast corner of said Section 34 bears South 89°33' E., a distance of 4989 feet**
6. The existing permitted point of diversion is located within **SW¹/₄NE¹/₄ Section 15, T.14N., R.25E., MDM, or at a point from which the Northeast corner of said Section 15 bears North 46°24'14" East, a distance of 3537.62 feet**
7. Proposed place of use **no change**
8. Existing place of use **See Attached Exhibit A**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works. **well, pump, motor, pipeline and ditches**
12. Estimated cost of works **\$100,000**
13. Estimated time required to construct works **1 year**
14. Estimated time required to complete the application of water to beneficial use **2 years**
15. Remarks: **This application is to allow drilling of a new well to replace an existing well and supplement other sources in the same place of use. A permanent application to change will be to fully abrogate the water under 58754 and move to this same proposed point of diversion. Applicant is requesting a temporary permit to allow drilling as soon as possible. Please use map on file under Permit 58745 to support the existing point of diversion and place of use.**

70222-T

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions.

This temporary permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 58754 is issued subject to the terms and conditions imposed in said Permit 58754 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 58752, 58753, 58755, 58756, 58757, 58758, 58759 and Temporary Permit 70222-T, and any water of the Walker River Decree C-125, and storage water appurtenant to the place of use shall not exceed 5265.1 acre-feet per year for the irrigation of 1316.7 acres within the described place of use. The permit holder is responsible for insuring delivery of the entitled decreed and storage waters (surface waters) that are supplemental to these ground water permits. In years that the Walker River Irrigation District declares a full allocation of decreed water to the C-125 decree claims supplemental to these permits, or is able to provide full delivery of storage water to lands supplemental to these permits, ground water shall not be pumped from the wells described in these permits. In years that the Walker River Irrigation District declares a reduced allocation of decreed or storage water to claims supplemental to these permits, then surface waters must be used in entirety before any ground water can be pumped from the wells to complete the allocated duty of acre-feet per acre. In years that the Walker River District has no decreed or storage water, then ground water can be pumped from wells to provide the allocated duty for the permitted place of use.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on **September 3, 2004** at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.0 cubic feet per second, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

TEMPORARY

IN TESTIMONY WHEREOF, I, HUGH HACKETT, P.E.,

State Engineer of Nevada, have hereunto set
my hand and the seal of my office,

this 4th day of September, A.D. 2003.

State Engineer
