ATTACHMENT TO TEMPORARY APPLICATION TO CHANGE TRUCKEE RIVER  
DECREE CLAIM 601

Item 15. Remarks.

This application, together with an application to change Claim 607, is being filed to allow for the of temporary use of this portion of Claim 601. This is part of The Nature Conservancy's continuing efforts to rehabilitate natural vegetation at the McCarran Ranch and to assist in the improvement of water quality in the Truckee River. This project is a cooperative effort of The Nature Conservancy, the City of Reno, and the University of Nevada, Reno. A total of 350 AFA is proposed to be temporarily moved from the University's Main Farm area downstream to be used within the 393.63 acres being acquired by The Nature Conservancy through the sale of the Ranch. In the first two years of use of this water (under Permits 67963T and 69114T) seven acres of riparian area were planted and watered including approximately 10,000 trees.

The duty of water under Claims 601 and 607 is 4.0038 acre-feet per acre and 1.0039 acre-feet per acre, respectively. Although these applications are removing 53.78 acres and 134.81 acres from the Claims 601 and 607 irrigation areas, the duty proposed for transfer will reflect the decreed duty of the surface water rights at the proposed place of use (4.5 acre-feet per acre). This will allow a total of 77.78 acres to be irrigated annually within the overall 393.63 acres

Please use Truckee River Decree Maps TR-045 and TR-046 on file at the Division of Water Resources to support the existing point of diversion and place of use.
