**Exhibit "C"**

For the purposes of calculating diverted flow under the Truckee River Agreement, this water right, both the consumptive and non-consumptive portions shall continue to be considered as diverted at its existing point of diversion.

This Temporary Application changes the consumptive use portion of the total duty of Permit No. 65970. The consumptive portion is equal to or less than 62.5 % of the permitted right. The water is allowed to flow past TMWA's existing Points of Diversion and remain flowing in the river to Pyramid Lake for wildlife habitat and fish recovery in the river. The period of use begins June 1, 2004 through December 31, 2004 subject to the condition that no more than 25% of the amount will be used in any month.

TMWA reserves the right to withdraw this Temporary Application prior to issuance of the Permit should the water be needed for municipal purposes.
