

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: JOHN UHALDE & COMPANY
Source: UNDERGROUND
Basin: GARDEN VALLEY
Manner of Use: IRRIGATION
Period of Use: APRIL 20TH THROUGH SEPTEMBER 1ST
Priority Date: 06/23/2004

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permit 4635, Certificate 1567 and Permit 71365 shall not exceed 426.85 acre-feet per season.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is partially supplemental to surface water rights under Permit 4635, Certificate 1567, with the understanding that the surface water rights should be used on the supplemental ground before this well is pumped for supplemental use.

This permit is issued ahead of senior filings for out-of-basin transfers. Pursuant to NRS 533.370(3)(d), water must remain in the basin for future economic growth and development. As such, water under this permit must remain in the basin.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.0 cubic feet per second or 360.00 acre-feet annually for the irrigation of 90 acres within the described place of use.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 22 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

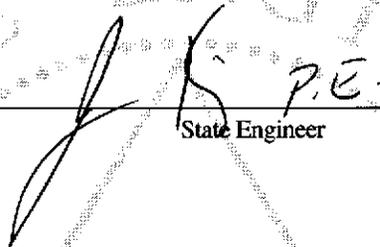

July 22 2016

Map in support of proof of beneficial use shall be filed on or before:

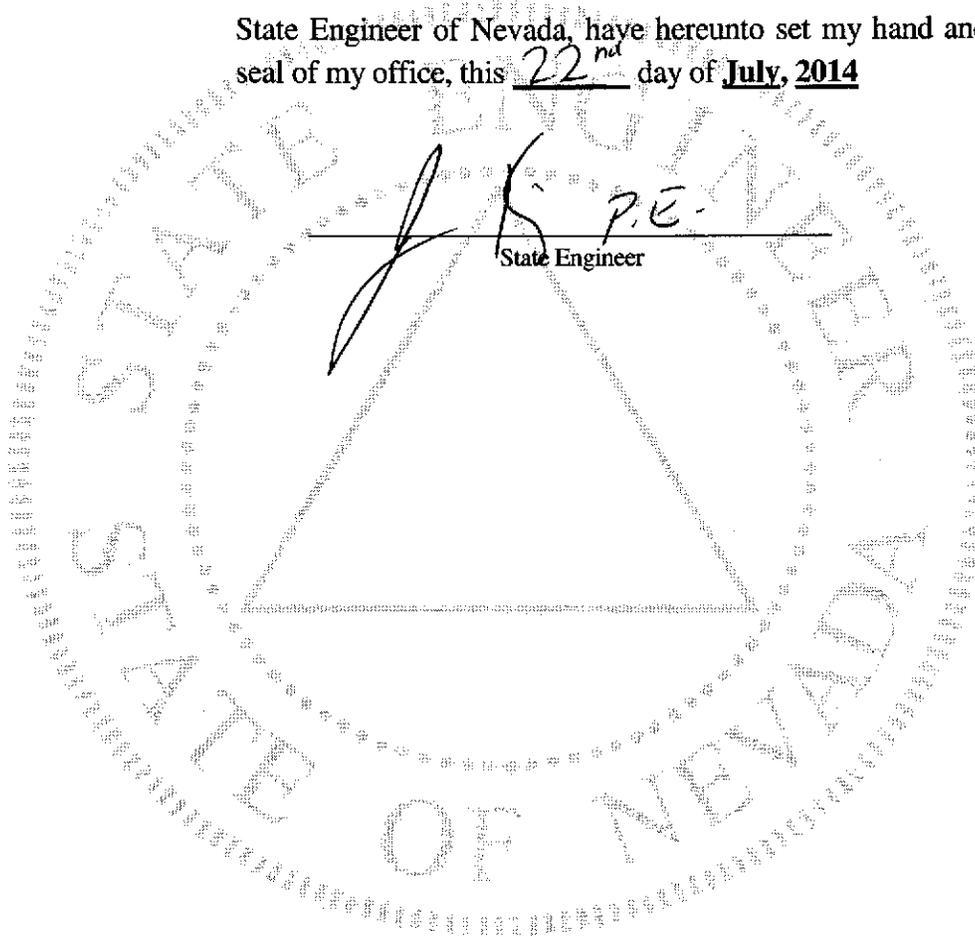

July 22 2016

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 22nd day of July, 2014

State Engineer

AMENDED
APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC
WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JUN 23 2004

Returned to applicant for correction JUL 12 2004

Corrected application filed SEP 10 2004

Map filed SEP 10 2004

The applicant **John Uhalde & Company** hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. **Co-partnership Helen Uhalde, Gracian N. Uhalde, Michael Uhalde, John Uhalde, Gracian R. Uhalde and Tim Uhalde.**

1. The source of the proposed appropriation is **Underground**
2. The amount of water applied for is **3.5648** second feet.
 - (a) If stored in reservoir give number of acre-feet
3. The water to be used for **Irrigation**
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated **196 ACRES**
 - (b) Stockwater, state number and kind of animals to be watered
 - (c) Other use (describe fully under No. 12. "Remarks") **N/A.**
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point **within the NW¼ SE¼ of Section 14, T.3N., R.57E., M.D.B.&M., or at a point from which the East Quarter corner of Section 14, T.3N., R.57E., M.D.B.&M., bears N.77°10'47"E., 2,424.67 feet distant.**
6. Place of Use **S½ SW¼ of Section 13 T.3N., R.57E., M.D.B.&M. and the NE¼ SE¼, and S½ SE¼ both in Section 14 T.3N., R.57E., M.D.B.&M., 196 ACRES**
7. Use will begin about **January 1st** and end about **December 31st** of each year.
8. Description of proposed works **A well will be drilled and the water pumped into ditches and pipelines.**
9. Estimated cost of works is **\$50,000.00**
10. Estimated time required to construct works **1 years**
11. Estimated time required to complete the application of water to beneficial use **2 years**

71365

12. Remarks: Portions of these waters will be supplemental to the waters of Permit No. 4635. Sharing Place of Use within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14 T.3N., R.57E., M.D.B.&M..
