

3rd CORRECTED PERMIT

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of applicant: COLVIN & SON, LLC
Source: UNDERGROUND
Basin: LITTLE FISH LAKE VALLEY
Manner of Use: IRRIGATION
Period of Use: April 15th to October 15th
Priority Date: 09/07/2004

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Any application to change this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin, and may be restricted to the consumptive use (2.4 acre-feet per acre).

This permit is issued subject to State Engineers Ruling 5719 and Stipulated Agreement Case No. CV26374, Fifth Judicial District Court of the State of Nevada in and for the County of Nye, dated September 2008.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 6.41 cubic feet per second or 1525.69 (120 days) acre-feet seasonally and not to exceed 3.5 acre feet per acre from any and all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

March 3, 2010

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

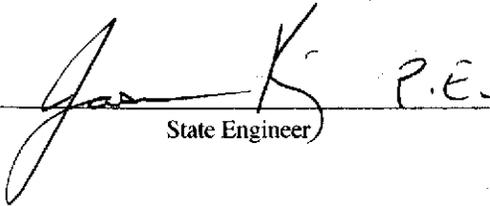

March 3, 2012

Map in support of proof of beneficial use shall be filed on or before:

March 3, 2012

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

This permit is issued subject to Ruling 5719.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 7.40 cubic feet per second, but not to exceed 2032.88 acre-feet seasonally, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 26, 2008

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

April 26, 2010

Map in support of proof of beneficial use shall be filed on or before:
