6. I am aware that, under NRS 534.350, a county may dedicate and relinquish sufficient water rights to offset water withdrawals from domestic wells of new homes. Water rights so relinquished revert to the source of the water. 7. I understand this relinquishment shall become effective upon the date of approval by the State Engineer. The affiant may petition the State Engineer to void this relinquishment if the final subdivision or parcel map is not recorded within 18 months after this approval. If a petition to void this relinquishment is *not* submitted to the State Engineer within the 18 month period, the water remains permanently reverted to the source.

8. I understand once these water rights are relinquished by recordation of a final subdivision map in the office of the county recorder of the county wherein the domestic wells are to be located, as provided in NRS 278.380 (2001), or in the case of a final parcel map as provided in NRS 278.4725 (2003), the process cannot be reversed nor can I claim said right as a water right.

9. Within 30 days of approval of this relinquishment by the State Engineer, I shall record this Affidavit in the office of the county recorder of the county in which the final subdivision or parcel map is recorded. I shall also record this Affidavit in the office of the county recorder of the county in which the previous place of use was located, if it is not the same county.

10. I shall provide the State Engineer's Office with a copy of this recorded Affidavit within thirty (30) days of its recording with the county recorder.
