APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 12811, Certificate 4320 is issued subject to the terms and conditions imposed in said Permit 12811, Certificate 4320 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permits 67692, 68459, 68624, 69303, 70404, 70626, 71014, 71709-T, 71753, 71754, 71755, 72088, 72089 and 72090 shall not exceed 741.85 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and other wells within the place of use of this permit. Records shall be submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter. Separate reports shall be made for water pumped under permits and vested rights, and for water pumped under other authorization such as waivers. The monthly record shall identify water right permits and waivers from each well, and include the size, make, serial number, and meter location associated with a well.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.143 cubic feet per second, and not to exceed 51.85 acre-feet annually

Work must be prosecuted with reasonable diligence and be completed on or before:

April 18, 2006

Proof of completion of work shall be filed on or before:

May 18, 2006

Water must be placed to beneficial use on or before:

April 18, 2007

Proof of the application of water to beneficial use shall be filed on or before:

May 18, 2007

Map in support of proof of beneficial use shall be filed on or before:
