

AMENDED PERMIT

72482

Page 2 of 3

15. Remarks: This application is being filed to correct the diversion rate under Permit 71458. Water being transferred is appurtenant to applicant's property. Once the permitting fees have been requested for this application, Permit 71458 will be withdrawn. Refer to Permit 71458 for proposed point of diversion and place of use. Refer to map on file under Permit 53450 for existing point of diversion and place of use.

This permit to change the point of diversion, manner and place of use of a portion of the waters of an underground source as heretofore granted under Permit 53450 is issued subject to the terms and conditions imposed in said Permit 53450 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is limited to the irrigation of 38.33 acres within the described place of use of which 34.47 acres must remain supplemental to surface rights. The Permittee is responsible for insuring delivery of the entitled decreed surface waters that are supplemental to these permits. In any year that the Federal Water Master declares a full allocation of decreed waters to the priority years of the Carson River claims supplemental to these permits, underground water shall not be pumped from the wells described in these permits except on the non-supplemental acreage being 3.86 acres. In any year that the Federal Water Master has no decreed water, or declares a reduced allocation of surface permits, then the place of use of the permits can be irrigated with underground water, but not to exceed a duty of 3.147 acre-foot per acre per season from the total of decreed and underground waters.

(Continued on Page 3)

AMENDED PERMIT

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.3324 cubic feet per second, but not to exceed 120.633 acre-feet per season, and not to exceed a seasonal duty of 3.147 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:
December 2, 2006

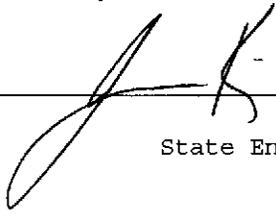

Proof of completion of work shall be filed on or before:
January 2, 2007

Water must be placed to beneficial use on or before:
December 2, 2010

Proof of the application of water to beneficial use shall be filed on or before:
January 2, 2011

Map in support of proof of beneficial use shall be filed on or before:
January 2, 2011

NO. 72482

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office APR 05 2005

Returned to applicant for correction APR 26 2005

Corrected application filed _____

Map filed JUL 15 2004 under 71458

The applicant **Lawrence L. Reece, Trustee; Lawrence L. Reece Trust dated October 2, 1995** hereby makes application for permission to change the **Point of Diversion, Manner & Place of Use of a portion** of water heretofore appropriated under **Permit 53450**

1. The source of water is **Underground**
2. The amount of water to be changed **0.3317 cfs, not to exceed 120.381 acre-feet**
3. The water to be used for **Irrigation**
4. The water heretofore permitted for **Irrigation and Domestic**
5. The water is to be diverted at the following point **NW ¼ SW ¼, Section 2, T.13N., R.19E., M.D.B.& M., or at a point from which the S ¼ Corner of said Section 2 bears S. 38°29'E., a distance of 2898.78 feet.**
6. The existing permitted point of diversion is located within **SE ¼ NE ¼, Section 2, T.13N., R.19E., M.D.B.&M. or at a point from which the S ¼ Corner of said Section 2 bears S. 35°42' W., a distance of 3318.50 feet**
7. Proposed place of use **38.25 acres within the following subdivisions: portions of the NW¼ SW ¼, portions of the NE ¼ SW ¼, portions of the SE ¼ SW ¼, portions of the SW ¼ SW ¼, Section 2; portions of the NE ¼ SE ¼, Section 3, T.13N., R.19E., M.D.B.&M., (Douglas County APN 1319-02-000-03)**
8. Existing place of use **See Attachment "A"**
9. Use will be from **April 15 to October 15** of each year.
10. Use was permitted from **April 15 (Irrigation) to October 15 (Irrigation)** of each year.
January 1 (Dom) December 31 (Dom)
11. Description of proposed works **Existing drilled and cased well equipped with pump, meter, motor & distribution system to the proposed place of use.**
12. Estimated cost of works **\$60,000.00**
13. Estimated time required to construct works **One (1) year**
14. Estimated time required to complete the application of water to beneficial use **Five (5) years**

See Amended

15. Remarks: **This application is being filed to correct the diversion rate under Permit 71458. Water being transferred is appurtenant to applicant's property. Once the permitting fees have been requested for this application, Permit 71458 will be withdrawn. Refer to Permit 71458 for proposed point of diversion and place of use. Refer to map on file under Permit 53450 for existing point of diversion and place of use.**
