**Name of applicant:** INTERMOUNTAIN WATER SUPPLY, LTD.  
**Source:** UNDERGROUND  
**Basin:** BEDELL FLAT  
**Manner of Use:** MUNICIPAL  
**Period of Use:** January 1st to December 31st  
**Priority Date:** 07/14/2005

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The Permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second or 52.6 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

November 20 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

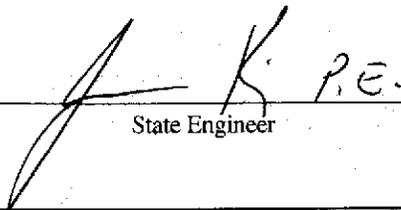

November 20 2016

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of December, A.D. 2010

\*\*\*\*\*

The applicant **Intermountain Water Supply, Ltd.**, hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

\*\*\*\*\*

1. The source of the proposed appropriation is **Underground**
2. The amount of water applied for is **5 cfs, not to exceed 500 acre-feet annually** second-feet
  - (a) If stored in reservoir give number of acre-feet
3. The water to be used for **Municipal and Domestic**
4. If use is for:
  - (a) Irrigation, state number of acres to be irrigated
  - (b) Stockwater, state number and kinds of animals to be watered
  - (c) Other use (describe fully under No. 12. "Remarks")
  - (d) Power:
    - (1) Horsepower developed
    - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point **SE¼ SE¼ Section 5, T23N, R19E, MDM, at a point from which the SE corner of said Section 5 bears S 40° E, a distance of 550 feet.**
6. Place of Use **See Attached Exhibit "A"**
7. Use will begin about **January 1** and end about **December 31** of each year.
8. Description of proposed works **Drilled well equipped with pump and controls, and a water transmission pipeline to deliver water to Lemmon Valley**
9. Estimated cost of works **\$500,000, this component only**
10. Estimated time required to construct works **5 years**
11. Estimated time required to complete the application of water to beneficial use **10 years**

**73048**

12. Remarks: Supporting map for the proposed point of diversion is on file with the Division of Water Resources under Application No. 26771. Supporting map for the proposed place of use is filed under Application No. 64073. This application to appropriate groundwater is in addition to Permit No. 66873, as groundwater may be deemed to be available by the State Engineer.
