APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 59213 is issued subject to the terms and conditions imposed in said Permit 59213 and with the understanding that no other rights on the source will be affected by the change proposed herein.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

No extensions of time for the proof of completion will be granted beyond the terms of this permit unless the permit holder can demonstrate full compliance with NRS 533.380(3).

This permit is issued for quasi-municipal purposes on the parcel identified by the Nye County Assessor as APN 35-041-16 (18.92 acres).

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0059 cubic feet per second or 3.5 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 10, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

October 10, 2011

Map in support of proof of beneficial use shall be filed on or before:
