This amended permit to change the place of use and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 16570, Certificate 5504, is issued subject to the terms and conditions imposed in said Permit 16570, Certificate 5504 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a two (2) inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. (Continued on Page 2)

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.
