

**THE STATE OF NEVADA****PERMIT TO CHANGE POINT OF DIVERSION,
MANNER OF USE AND PLACE OF USE OF THE
PUBLIC WATERS OF THE STATE OF NEVADA
HERETOFORE APPROPRIATED**

Name of applicant: REDROCK VALLEY RANCH, LLC
Source: UNDERGROUND
Basin: RED ROCK VALLEY
Manner of Use: MUNICIPAL
Period of Use: January 1st to December 31st
Priority Date: 05/21/1976

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 30268, Certificate 10525, is issued subject to the terms and conditions imposed in said Permit 30268, Certificate 10525 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 73960, 73961, 73962, 73963 and 73965 shall not exceed 484 acre-feet annually.

The total combined duty of water under Permits 73960, 73961, 73962, 73963, 73965, 73966 and 74368 shall not exceed 1,273 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The issuance of this permit is for the consumptive use portion only, being 61.5 acre-feet, of the 98.4 acre-feet portion of the base right. The remainder, 36.9 acre-feet, remains in the groundwater source. The issuance of this permit abrogates 98.4 acre-feet from Permit 30268, Certificate 10525.

As provided in State Engineer's Ruling No. 5816, dated January 15, 2008, a monitoring and mitigation plan must be developed and submitted to the State Engineer for approval prior to the diversion of any water authorized under this permit. Upon approval of the plan, the permittee is required to submit an annual report of the monitoring results. Upon review of the monitoring results, the State Engineer retains the right to reduce the pumping from this well, or to take appropriate action to protect the public interest or to prevent conflict with prior existing rights or domestic wells. If unreasonable impacts to existing rights or domestic wells are demonstrated, the permittee will be required to mitigate the same.

As provided in Ruling No. 5816, the total combined duty of water initially allowed to be pumped under Permits 73960, 73961, 73962, 73963, 73965, 73966 and 74368 is limited to 855 acre-feet annually until such time as the conditions set forth in Option 1 or Option 2 under Finding XVI of the Ruling are met and the State Engineer determines that an additional amount up to 418 acre-feet annually of water under these subject permits can be pumped.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.446 cubic feet per second or 61.5 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 30, 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 30, 2018

Map in support of proof of beneficial use shall be filed on or before:

N/A

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office MAR 03 2006

Returned to applicant for correction MAR 21 2006

Corrected application filed _____

Map filed MAR 15 2006 under 73960

The applicant **Redrock Valley Ranch, LLC** hereby makes application for permission to change the **Point of Diversion, Place and Manner of Use of a portion** of water heretofore appropriated under **Permit No. 30268, Certificate No. 10525**

1. The source of water is **underground**
2. The amount of water to be changed **0.5181 cfs, 114.40 acre feet annually**
3. The water to be used for **Municipal and domestic**
4. The water heretofore permitted for **Irrigation & domestic**
5. The water is to be diverted at the following point **within the NW ¼ of the SW ¼ of Section 12, T.23N., R.18E., M.D.M., or at a point from which the west ¼ corner of said Section 12 bears North 46°24'09" West a distance of 967.20 feet. See map supporting Permit No. 29181.**
6. The existing permitted point of diversion is located within **the SE ¼ of the SW ¼ of Section 2, T.23N., R.18E., M.D.M., or at a point from which the southwest corner of said Section 2 bears South 72°49'47" West a distance of 1409.39 feet. See map supporting Proof of Beneficial Use under Permit No. 30268.**
7. Proposed place of use **Please see attached Exhibit "A".**
8. Existing place of use **6.0 acres within the SW¼ SW¼, 19.0 acres within the SE¼ SW¼ and 2.7 acres within the SW ¼ SE ¼ of Section 2; 0.9 acres within the NE¼ NW¼ of Section 11: all in T.23N., R.18E., M.D.M.. All of the certificated place of use, as shown on the map supporting Proof of Beneficial Use for Permit No. 30268, excepting those portions changed by Permit No. 58343 and those portions owned by Ronald J. Brown.**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **Water will be diverted by pipeline to existing T.M.W.A. facilities, treated and placed into the existing distribution system.**
12. Estimated cost of works **\$5,000,000.00**
13. Estimated time required to construct works **3 years**
14. Estimated time required to complete the application of water to beneficial use **10 years**

73965

15. Remarks: **Water will be pumped, treated and delivered from Basin 99 by pipeline to TMWA's water distribution system in Stead to used within the proposed place of use described in Item 7.**
