

No. 74267

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER  
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF  
NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office MAY 04 2006

Returned to applicant for correction \_\_\_\_\_

Corrected application filed \_\_\_\_\_

Map filed MAY 04 2006 under 73730

\*\*\*\*\*

The applicant **Truckee Meadows Water Authority** hereby makes application for permission to change the **Point of Diversion and Place of Use of a portion** of water heretofore appropriated under **Permit 23848 / Certificate 7623**

\*\*\*\*\*

1. The source of water is **Underground**
2. The amount of water to be changed **0.40 c.f.s. but not to exceed 290 acre feet annually**
3. The water to be used for **Municipal and Domestic**
4. The water heretofore permitted for **Municipal and Domestic**
5. The water is to be diverted at the following point **Situate in the SW ¼ SW ¼ of Section 18, T 19N, R 19E, MDM, or at A point from which the southwest corner of said Section 18 bears South 80° 30' 21" West, a distance of 977.68 feet, see Map submitted with Application No. 73730**
6. The existing permitted point of diversion is located within **The SE ¼ SE ¼, Section 8, T19N, R 20E, MDM, or at a point From which the East ¼ corner of said Section 8 bears North 32° 15' 52" East, a distance of 2,155.97 feet, see map submitted with Application 23847.**
7. Proposed place of use **See attached Exhibit "A", the legal description as described in Application No. 69710 and shown on the map accompanying said Permit on file with the Division of Water Resources, State of Nevada.**
8. Existing place of use **The Reno-Sparks area within the : S ½ of Section 32; S ½ of Section 33, T 20N, R 20E; and Sections 4, 5, 8, &9, T 19N, R 20 E, MDM**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **Work to include; drilling, casing, and installing of pumping and other related facilities to put a production well on line and connected into TMWA's distribution system.**
12. Estimated cost of works **\$ 700,000**
13. Estimated time required to construct works **Five (5) Years**
14. Estimated time required to complete the application of water to beneficial use **Ten (10) years**

15. Remarks: The map showing the Point of Diversion of this new well was submitted with Amended Application 73730

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 23848, Certificate 7623, is issued subject to the terms and conditions imposed in said Permit 23848, Certificate 7623, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping this well on other previously existing wells that are located within 2,500 feet of this well.

This includes, at a minimum, static and pumping water level data in the production well and any nearby monitor wells.

Any pumping of water in this well may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of this well, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.  
(Continued on page 3)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.4 cubic feet per second, but not to exceed 289.59 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 11, 2012

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

January 11, 2017

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,  
State Engineer of Nevada, have hereunto set  
my hand and the seal of my office,  
this 11th day of January, A.D. 2007

Tracy Taylor, P.E.  
State Engineer
