This temporary permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 60294 is issued subject to the terms and conditions imposed in said Permit 60294 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. The State retains the right to regulate the use of the water herein granted at any and all times.

The manner of use of water under this temporary permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies, and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and accounts for pumpage in calendar year 2005 and therefore expires on the date of approval at which time all rights herein granted shall revert to the right being changed by this temporary permit.
