THE STATE OF NEVADA

PERMIT TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: ELEPHANT, LLC
Source: UNDERGROUND
Basin: ANTELOPE VALLEY
Manner of Use: MUNICIPAL
Period of Use: January 1st to December 31st
Priority Date: 07/18/1956

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place and manner of use of the waters of an underground source as heretofore granted under Permit 16988, Certificate 5733, is issued subject to the terms and conditions imposed in said Permit 16988, Certificate 5733 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

Pursuant to NRS 533.3703, the total combined duty of water under Permits 75584, 75585, 75586, 75587 and 75588 shall not exceed the net consumptive use amount of 1389.6 acre-feet annually. Additional diversion up to the total of 1726.6 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 1389.6 acre-feet to be exceeded.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

This permit is approved for the entire 434.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 347.2 acre-feet, can be diverted annually. Additional diversion up to the total 434.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 347.2 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 4.4 cubic feet per second or 434.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 22, 2011

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

July 22, 2015

Map in support of proof of beneficial use shall be filed on or before:
