QUESTION 15

The existing well covered under Permit 64613 will no longer produce enough water to irrigate the place of use and this Application is being filed on a new point of diversion so that a new well can be drilled. The old well will continue to be used for stock water and domestic purposes. The new place of use will be on 13.1415 acres within the larger area shown on the map which accompanies this Application. The cultural map which will support the Proof of Beneficial Use when it is filed will indicate the exact location of the 13.1415 acres.
