

THE STATE OF NEVADA
PERMIT TO CHANGE POINT OF DIVERSION,
MANNER OF USE AND PLACE OF USE OF THE
PUBLIC WATERS OF THE STATE OF NEVADA
HERETOFORE APPROPRIATED

Name of applicant: FRADE RANCHES INC.
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: IRRIGATION
Period of Use: January 1st to December 31st
Priority Date: 08/29/1960

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 66899 is issued subject to the terms and conditions imposed in said Permit 66899 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The total combined duty of water under Permit 25633, Certificate 8934; Permit 48616, Certificate 11881; Permits 66900, 76432, 76433 and 76434 and any waters of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 2289.20 acre-feet per year for the irrigation of 572.3 acres. The permittee is responsible for insuring delivery of the entitled decreed and storage waters that are supplemental to these permits.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.04 cubic feet per second or 13.6 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 18, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

September 18, 2011

Map in support of proof of beneficial use shall be filed on or before:

September 18, 2011

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 18th day of September, A.D. 2008
