11. Estimated time required to complete the application of water to beneficial use: 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water to be used for irrigation of crops and one home. One deep turbine well connected to booster pump, connected to approximately 1/4 mile of underground pipe going to the middle of the width of the property which will connect to one mile of underground pipe, with risers, going the length of the property. Underground piping will have shut off valves in strategic areas. Will use wheel lines for irrigation of alfalfa.

13. Miscellaneous remarks:

Well on property was already constructed and tested when I assumed Desert Land Entry. There had been a well permit, number 42812, at the time of the construction of this well, but now since that permit has been cancelled I am applying for a new one even though the well is already constructed with piping and pumps.
