

THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER

Name of applicant: ROYAL CEMENT COMPANY
Source: UNDERGROUND
Basin: LOWER MOAPA VALLEY
Manner of Use: COMMERCIAL AND DOMESTIC.
Period of Use: January 1st to December 31st
Priority Date: 11/26/2007

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second or 100.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 26, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

June 26, 2010

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26th day of June, A.D. 2008

 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

220-4

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the NW 1/4 NE 1/4 Sec. 9, T. 15S., R. 67E., M. D. B. & M. from which point the SW cor. Sec 8, T. 15S., R. 67E bears S. 62° 20' 45" W. 9482 feet

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated.)

Portions of NE 1/4 NW 1/4, NW 1/4 NE 1/4, SW 1/4 NE 1/4, SE 1/4 NE 1/4, and NE 1/4 NE 1/4 Sec. 9, T. 15S., R. 67E., M. D. B. & M.

7. Use will begin about January 1st and end about December 31st of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

Well to two 7500 gallon storage tanks, which was completed under the original application. No new work completed

9. Estimated cost of works: Ø

10. Estimated time required to construct works: Ø (if well completed, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Ø

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)
Commercial use consists of limestone/cement production, dust control, and other misc. uses relative to cement mill site operation. Domestic use is for on site residences for the employees consumption.

13. Miscellaneous remarks:

This application is submitted in the hope that the original permit might be reinstated
