

**TEMPORARY
THE STATE OF NEVADA**

**PERMIT TO CHANGE POINT OF DIVERSION,
MANNER OF USE AND PLACE OF USE OF THE
PUBLIC WATERS OF THE STATE OF NEVADA
HERETOFORE APPROPRIATED**

Name of applicant: ROUND MOUNTAIN GOLD CORP, HOMESTAKE NEVADA
CORP, BARGOLD CORP DBA SMOKY VALLEY COMMON
OPERATION

Source: UNDERGROUND

Basin: BIG SMOKY VALLEY-NORTHERN PART

Manner of Use: MINING AND MILLING

Period of Use: January 1st to December 31st

Priority Date: 08/14/1981

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 59218 is issued subject to the terms and conditions imposed in said Permit 59218 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies, and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire one year from the date of approval at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This source is located within an area designated by the State Engineer as provided in Nevada Revised Statutes 534.030 (NRS). This temporary permit is issued as a preferred use as provided in NRS 534.120.

This temporary permit will allow the permittee to dewater the pit area. It is understood that any water obtained as a result of this dewatering operation shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering, and other related mining and milling uses (hereinafter referred to as mining and milling).

Any water pumped and not used for mining and milling purposes shall be infiltrated back to the Big Smoky Valley Groundwater Basin, Northern Part (137B). The permittee shall discharge water in a manner to achieve maximum conservation of the water resource.

The total combined duty of water for consumptive purposes under Permits 536, 1077, Certificate 267; Permit 2908, Certificate 353; Permit 3898, Certificate 2347; Permit 12442, Certificate 3831; Permit 12445, Certificate 3832; Permit 12768, Certificate 3751; Permit 14119, Certificate 4889; Permit 26650, Certificate 13904; Permit 26652, Certificate 13905; Permits 44297, 44299, 44300, Certificate 13174; Permits 50971, 51577, Certificate 13185; Permit 51578, Certificate 13186; Permits 53365, 55498, 55500 through 55503, 59217, 59218, 60874 through 60876, 70169 through 70185 and Temporary Permits 75368T, 75370T through 75373T, 75433T through 75435T, 75651T through 75659T, 76396T through 76424T, 76426T and 76519T through 76521T will not exceed 13,910 acre-feet annually.

(Continued on Page 2)

The State Engineer will retain the right to require additional monitoring of the water levels in observation and monitor wells and of the flow rates of surface sources. The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring on a periodic basis, but not less than two times per year.

The State Engineer may require additional monitoring should conditions warrant such modification.

Monthly records shall be kept of the following and reported within 15 days after the end of each quarter:

- A. The total volume of water pumped from each diversion in acre-feet.
- B. The maximum flow rate from each diversion in cubic feet per second.
- C. The pumping water level from each well in feet above mean sea level.
- D. The volume of water consumptively used for mining and milling in acre-feet.
- E. The amount of water diverted to the infiltration sites in acre-feet.
- F. The amount of water diverted to other consumptive uses, if any, in acre-feet.
- G. The amount of water lost through evaporation or other system losses project wide.
- H. The status and flow rates of various surface water sources in the area that may be impacted by the dewatering.

The State retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and to protect existing rights.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.11 cubic feet per second or 803.61 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

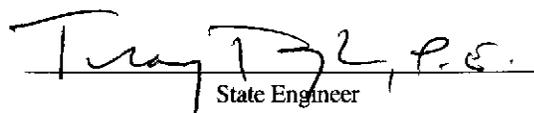

N/A

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 25th day of January, A.D. 2008

State and Zip Code No.

point of diversion, place and manner of use of a portion

of water heretofore appropriated under Permit # 59218
Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree

and identify right in Decree.

1. The source of water is underground (DW-52)
Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 1.11 cfs
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for mining activities (including reclamation), milling, and dewatering
Irrigation, power, mining, commercial, etc. If for stock state number and kind of animals. Must limit to one major use.

4. The water heretofore used for mining, milling, domestic and dewatering
If for stock state number and kind of animals.

5. The water is to be diverted at the following point within the NW 1/4 of the SE 1/4 of Section 24, T.10N, R. 43E,
Describe as being within a 40-acre subdivision of public survey and by course and

M.D.M., at a point from which the W 1/4 corner of Section 24, T.10N, R. 43E. bears N 67 degrees, 49 minutes,
distance to a section corner. If on unsurveyed land, it should be stated.

52 seconds W for a distance of 3269.39 feet.

6. The existing point of diversion is located within the SW1/4 of the SW1/4 of Section 19, T.10N., R.44E, M.D.M.,

at a point from which the SE corner of Section 30 T10N, R44E bears S 34 degrees 46 minutes 16 seconds E for a
If point of diversion is not changed, do not answer.

distance of 7138.5 feet

1373-114

7. Proposed place of use within Sections 17, 18, 19, 20, 29, 30 & 31, T10N, R44E, M.D.B.&M. (portions unsurveyed); Sections 13, 23, 24, 25, 26, 34, 35 & 36, T10N, R43E, M.D.B.&M.; Section 6, T9N, R44E; and Sections 1, 2, & 3 T9N, R43E, M.D.B.&M.

8. Existing place of use within sections 17, 18, 19, 20, 29 & 30 of T10N, R44E, MDM (portions unsurveyed), and in Sections 13, 23, 24, 25, & 26 of T10N, R43E, MDM

9. Use will be from January 01 to December 31 of each year.

10. Use permitted from January 01 to December 31 of each year.

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works Existing well.

pipes and flumes or drilled well, pump and motor, etc

12. Estimated cost of works Completed well.

13. Estimated time required to construct works Cased well with electric motor and submersible pump.

14. Estimated time required to complete the application of water to beneficial use Temporary Right

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This well will serve to dewater the mining pit and to ensure highwall stability. The water developed will be co-mingled with other water rights held by the applicant and will be primarily utilized in the mining and milling processes, including associated reclamation activities.
