

THE STATE OF NEVADA

PERMIT TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant: RICHARD J. BAUGHMAN FAMILY
TRUST, DATED OCTOBER 18, 1972

Source: UNDERGROUND

Basin: LAS VEGAS VALLEY

Manner of Use: QUASI-MUNICIPAL

Period of Use: January 1st to December 31st

Priority Date: 03/15/1950

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 52722, Certificate 14374 is issued subject to the terms and conditions imposed in said Permit 52722, Certificate 14374 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 60411, 68168, 71088 and 76538, having the same point of diversion and place of use, shall not exceed 0.061 cubic feet per second, 10.44 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for Quasi-Municipal purposes on the parcels identified by the Clark County Assessor as APN's 178-06-202-012 and 178-06-202-027.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0050 cubic feet per second or 3.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 8, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

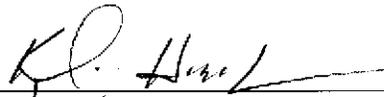

December 8, 2011

Map in support of proof of beneficial use shall be filed on or before:
