

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: NORMAN K. AND SUSAN A. SHARP
Source: UNDERGROUND
Basin: RAILROAD VALLEY-NORTHERN PART
Manner of Use: IRRIGATION
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 03/18/2008

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

That portion (0.98 ac) of Permit 76825 within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 27, T6N, R56E is limited to 3.92 acre-feet annually from any and all sources, being supplemental to surface water irrigation from Little Meadow Creek under Permit 4755, Certificate 1110.

This permit is issued subsequent to senior filings for an out-of-basin transfer. Pursuant to NRS 533.370(3)(d), water must remain in the basin for future economic growth and development. As such, water under this permit cannot be transferred out of the basin.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.4 cubic feet per second or 320.0 acre-feet annually and not to exceed an annual duty of 4.0 acre-feet per acre from any and all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 28 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

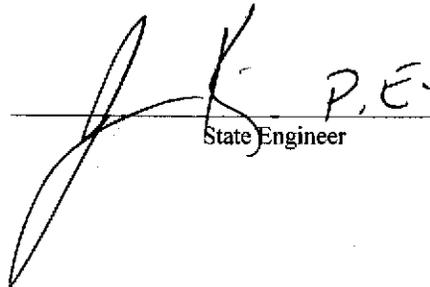

December 28 2015

Map in support of proof of beneficial use shall be filed on or before:

December 28 2015

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 28th day of **December, 2012**

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office MAR 18 2008

Returned to applicant for correction _____

Corrected application filed _____ Map filed JAN 14 1972 under 26480

The applicant Norman K. and Susan A. Sharp

HCR 76 Box 900 of Tonopah

Street Address or P.O. Box

City or Town

Nevada, 89049 hereby make(s) application for permission to appropriate

State and Zip Code

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

1. The source of water is Underground

Name of stream, lake, underground, spring or other sources.

2. The amount of water applied for is 1.4 cfs second feet.

One second foot equals 448.83 gallons per minute.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Irrigation and domestic

Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated 80 acres

(b) Stockwater, state number and kind of animals _____

(c) Other use (describe fully in No. 12) _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

173B-NY

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NW1/4 NW1/4 Section 27, T.6 N., R.56 E., M.D.B. & M., or at a point from which the NE corner of Section 27-T.6 N., R.56 E., bears N 89° 39' 20" E., a distance of 9,422.68 feet distance.
