12. Estimated cost of works \$40,000.00

13. Estimated time required to construct works 2 years
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary). The proposed use should be temporary in nature, or the requested change should be the result of an unforeseen occurrence: (Failure to provide a detailed description may cause a delay in processing.)
Diminished production from existing permitted wells in this half-section have necessitated this change application to an additional new location.

16. Miscellaneous remarks: Applicant has submitted permanent change application #76542, to accomplish the same change as is outlined in this filing. However, since combined yield from the two existing wells (#20005, 63704) for this half section is not adequate to deliver the permitted and necessary duty, the urgency of completing and equipping this proposed new well before the coming irrigation season is emphasized. 1.3 acres of irrigation right under #63704 has been previously abrogated by permit #73498. Please refer to map filed in support of #76542 (reduced size copy enclosed) to support this temporary change application. Please send copies of notices & correspondence to the undersigned agent.
